Pulmonary Function Instructions

Pulmonary Function Tests—A series of breathing exams which measure the flows and volumes of your lungs. It is an indicator of how mechanically well your lungs are operating. These tests help the physician in determining status and treatment, such as proper medication and dosage.

Special Preparations:

Try not to take bronchodilator (lung inhalers or lung pills) within 4-6 hours of your scheduled test. Do not take the medicine if you can not tolerate doing without.

Try not to smoke before the test if possible.

Report to the office 15 minutes before your scheduled tests.

If you are delayed or need to reschedule, please call the office at 615-444-6203 and ask to reschedule. If you need to reschedule please do so as soon as you are aware so other patients may be scheduled in your place. Thank you for assisting in the performance of this valuable examination of your lung function .
